

This shows the homepage of our website.

This shows the login page, where staff are required to use their personal email and password to access the system.

This shows the 'About Us' section, which displays information about the Drive Hub system.

This shows the list of vehicles available in the Drive Hub system.

This figure shows the date selection interface for vehicle booking. The red color indicates that the date has already been booked.

This figure shows the list of vehicles that have been previously booked by the user.

This figure shows the list of vehicles indicating whether the bookings have been approved or not.

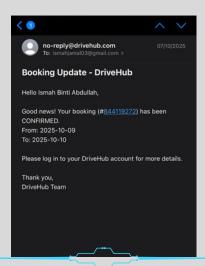

Once the vehicle booking has been confirmed, the user must download the PDF file as proof that the booking was successfully made. In addition, the user can also cancel the booking if any issues arise.

/////////////

This is the user's vehicle booking application PDF file.

When a vehicle booking is either successful or unsuccessful, the administrator can send a notification to the user via email.

This is the Frequently Asked Questions (FAQ) section of the Drive Hub system.

Users can provide feedback or submit any inquiries through this section.
